We understand that some health challenges are beyond your control—even if you're doing your best to stay healthy. That's why your NCD will not be reduced if you need to make a claim for any of the following:

Emergency Treatment that includes any accident-related treatment.

ICU Stays Lasting Seven (7) Days or More as listed under this plan's Benefit Schedule

Post-Hospitalisation Benefits as listed under this plan's Benefit Schedule

Vaccine-Covered Illnesses under this plan's Vaccination Benefit.

And Others! No NCD reduction conditions apply to the benefits listed in the Benefit Schedule from Section B to Section F, where applicable. For more details, please refer to the 'Benefit Schedule' tab.

How does the Discount Benefit NCD work?

Discount Benefit is given based on the chart below:

Note: If a claim is made due to any scenarios in page 3, the NCD will not reduce. This applies to all 3 scenarios below.

Scenario 1

If there are no claims, the NCD level remains unchanged

Scenario 2

When a claim is made in Year 2, a Top-Up Premium will be required for the next year. When no claim is made in Year 3, NCD will return to 40% in Year 4.

Scenario 3

When there are claims in consecutive years (i.e Year 2, Year 3 and Year 4), the NCD will gradually reduce to 0%. However, when no claims are made in subsequent years, the NCD will slowly increase to 40%.

MHSE 1000

Upon policy inception, Sabrina enjoys **40% Upfront Discount** on the Insurance Charges.

Scenario 1

In Year 2, Sabrina contracts dengue and is admitted into private hospital for 5 days.

Her NCD will reduce from 40% to 30% in Year 3 and she needs to **Top-Up RM169** on her medical plan for the next year (Year 3).

A claim was made in Year 2, NCD reduces to 30% at Year 3 and Top-Up Premium is required for Year 3.

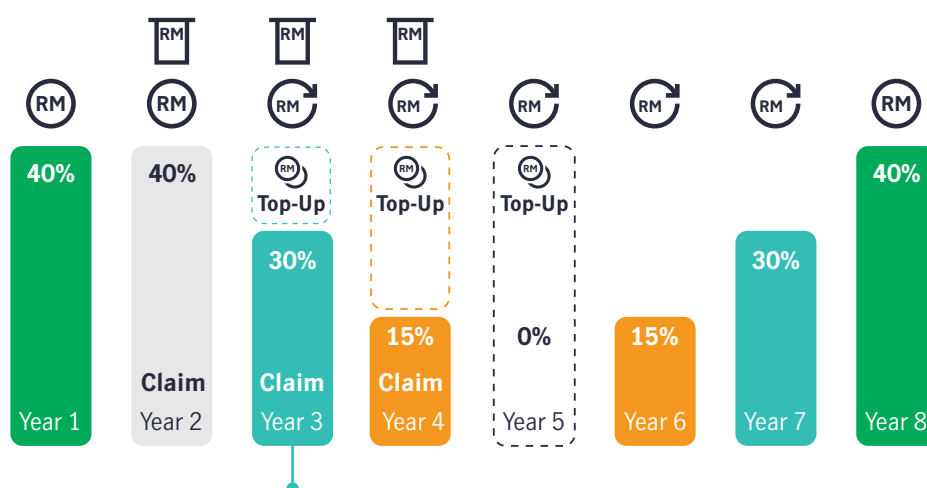

NCD returns back to normal if there are no claims in Year 3 and onwards

Scenario 2

In the following year (Year 3), Sabrina is admitted into private hospital due to asthma for 3 days and her **NCD is further reduced to 15%**. So, she needs to **Top-Up RM562 in Year 4**.

Following year (Year 4), Sabrina contacts Urinary Tract Infection (UTI) while traveling for work and she is hospitalised, her **NCD is now further reduced to 0%**, and she needs to **Top-Up RM1,223 in Year 5**.

In subsequent years, Sabrina did not make any claims. The NCD will gradually increase each year and **return to 40% in Year 8**, as long as there are **no claims for three consecutive years**.

A claim was made in Year 2, Year 3 and Year 4, NCD reduces to 30% at Year 3, 15% at Year 4, and 0% at Year 5 and Top-Up Premium is required for Year 3, Year 4 and Year 5.

The figures above are for illustration purpose only, actual charges are based on the current cost of insurance.

Kindly note that when the NCD is reduced, the policy coverage term will also be shortened due to higher Insurance Charges. Therefore, Sabrina (the Policy Owner) will be required to perform a Top-Up Premium for next year. The No Lapse Guarantee may be forfeited if the Top-Up Premium is not paid after the end of the grace period. When no claims are made, the NCD will increase in the next year and the Top-Up Premium is not required.

Note: Please note that all amounts above are rounded up to the nearest Ringgit.
